

# WHAT IS A HOMES FOR HOPE PROJECT?

## A PROJECT FOR A GREATER PURPOSE

A building industry professional will identify a job as a Homes for HOPE project - choosing to donate funds generated by the project to invest in the dreams of families in the world's underserved communities.

## A CHANCE TO SERVE TOGETHER

Trade partners, suppliers, and service providers choose to join the project by donating or discounting their time, talent, and resources. This maximizes the profit margin without compromising the quality of work. Once the project is completed, all their hard work will be realized in a large sum donation to Homes for HOPE.

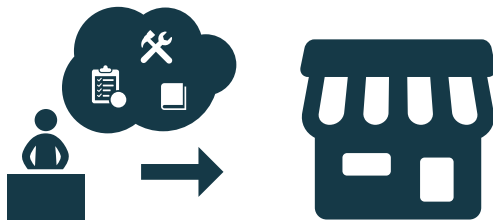

## A HAND UP, NOT A HANDOUT

As these loans are paid back, the money is sent back out as more loans creating an ever-growing impact. Across the world, these gifted entrepreneurs join solidarity groups which foster material, social, personal, and spiritual growth empowering them to create opportunity for themselves and others in their community.

## A DIFFERENT KIND OF DEVELOPEMENT

In partnership with HOPE International, this donation provides training, savings services, and loans to men and women living in poverty across 16 countries. One completed project can benefit thousands of families! The talented entrepreneurs HOPE serves use the capital to start or expand businesses while working hard to pay their loans back.

## ENTREPRENEURS SERVING ENTREPRENEURS

The building industry knows what it takes to work hard, build businesses, and serve their communities. As entrepreneurs themselves, industry professionals can uniquely relate to and respect the gifted entrepreneurs HOPE invests in through each completed Homes for HOPE project.

## TO BREAK THE CYCLE OF POVERTY

With a stable income, the families HOPE serves are better able to meet their essential needs long term, gradually breaking the cycle of poverty.

Will you join us in this strategic work?
